Jeaneanne –

The team made a couple of tweaks for clarity (vs. substance) in the attached timeline:

- Specified under July 15th that this is the start date we're using for the 120-day clock. (We might not really initiate the review for a day or two, but it will be a quick turn-around.)
- Instead of calling the three items at the bottom as "TBD", re-characterized them as non-ESA items happening simultaneously. (The Tribal consultation in particular is one of the shorter, better-known processes we expect to happen early in the 120 days.)
